

Part and Full time GIS Developers, Geospatialists, App Developers, Programmers wanted for revolutionary real estate PropTech company located in Hudson Valley, NY. Be part of History!

**Land Defined Technologies
Kingston, New York**

Come be a part of PropTech history, using your wide variety of Geographic Information Systems applications and skills as well as all other technologically proficient niches discussed below. Luxmatch, a New York State based Corporation, is currently looking for residents of Upstate New York and NYC to work on a project that will help change the face of real estate brokerage and search! We would consider looking at remote personnel if they have the right skill sets to fill our current part and full time job positions. We have recently launched www.LuxMatch.com and www.offmarketconsult.com, a NYS licenses brokerage that will work in tandem to help connect more buyers and sellers. We are currently looking for applicants that have the following skill sets. Note: any GIS specialist is open to applying:

Experience setting up and maintaining Geoserver, Mapserver, Tomcat, Postgres with PostGIS on ubuntu linux, importing .shp and .gdb files, configuring KML and WMS services and interfacing with Google Maps and Bing APIs displayed with Leaflet. Using PostGIS functions for determining intersects, distances, viewsheds and automating these processes with PostGIS or using open source tools such as QGIS and Grass GIS. If you currently have a license to Esri, this is also a plus. If you are interested in building Spatial Decision Support Systems, completing MCDA, and MODA, have experience developing highly desirable visual mapping interfaces and toolset for apps and online, such as building geovisualization platforms and geoportals, familiar with MLS and IDX real estate technology as well as developing hedonic pricing models to build AVM'S. Those who are also proficient in developing apps, both geospatial and real estate related should also apply.

We are looking for highly driven, innovative candidates that are interested in a long term career with Land Defined Technologies Corp. You can reach our CEO, Evan Spero at Evan@luxmatch.com by sending your resume and a brief description in the body of the email of why you think you can be a quality candidate for our growing company, and one that will be looking to change the course of real estate search forever! Thank you and our team looks forward to hearing from you.
