

Finally Use Your Geospatial Expertise To Change The Course of Real Estate Search And Brokerage

Luxmatch
Red Hook, New York

Seeking a part-time GIS Analyst to work with a startup property-tech company located in the Hudson Valley. Luxmatch is looking for geospatial experts with the following qualifications:

- 5 years experience using Esri desktop software

- 5 years experience automating complex geoprocessing workflows with Python

Not required, but good to have:

- 1 year experience administering relational databases (SQL, Postures, or Oracle)

- 1 year experience developing web mapping applications (JavaScript, PHP, HTML, CSS)

If you are a self-motivated individual with the above qualifications, please send an email with your resume and a cover letter to Evan Spero at evan@luxmatch.com. There may be long term career opportunities with both Luxmatch and its affiliated Real Estate Brokerage. Our team looks forward to hearing from you.
