

## **Adjunct Teaching Opportunities**

### **Rochester Institute of Technology (RIT) School of Interactive Games & Media**

The [School of Interactive Games and Media \(IGM\)](#) at the [Rochester Institute of Technology \(RIT\)](#) located in Rochester, NY has a growing Geographic Information Science and Technology (GIS &T) program. We are looking to hire adjuncts to teach GIS for Spring 2023, as discussed below.

#### **Requirements:**

1. MS or PhD in Geography, Computer Science, Information Technology, Environmental Science or other relevant areas
2. Esri GIS technology Experience: ArcGIS Pro, ArcGIS Online
3. Technical Skills: Python, HTML, graphic design

#### **Desirable Attributes:**

1. Previous undergraduate and graduate teaching experience
2. GIS industry experience

#### **GIS Teaching Assignments:**

1. Introductory GISystems courses based on Esri desktop software (undergraduate and graduate)
2. GIS programming and application development courses for web, mobile and desktop platforms
3. Geospatial Analysis and Spatial Statistics courses

#### **Adjuncting at RIT:**

1. RIT offers excellent [benefits](#) for adjuncts.
2. For the Spring 2023 semester, adjuncts have the option of in-person at the RIT campus or online modalities.
3. Accommodations can be made for working GIS professionals with an interest in teaching.

#### **Contact:**

Please send a brief letter of interest and a resume/CV to Brian Tomaszewski, [bmtski@rit.edu](mailto:bmtski@rit.edu)
